### STATEMENT:

Have you lost your job to downsizing or corporate mergers? Are you fearful that you might? If so, you won't want to vote for the Democrats or Republicans this November.

Establishment politicians think that larger, more elaborate government jobs programs are the solution to your problems. However, since these programs must be funded by taking money from the private sector, even more jobs are destroyed—more jobs than the government programs can ever create.

More government regulation and spending translate to more unemployment and less wealth creation. Less wealth creation means fewer goods and services, less health care, higher prices. The resulting lower standard of living means that people die needlessly. One study estimated that the death toll from regulations that do more harm than good cost 60,000 American lives each year! Will your loved ones be among them?

Even when government spends for a good cause, society becomes poorer. Consequently, the Swedish government, which established elaborate social safety nets in the 1970s, can now barely create enough wealth to sustain itself. America will end up in the same situation if we continue to grow government.

We know how jobs are destroyed: too much regulation and too much government spending. We know how to reverse the process; we've done it before. If you elect me as your president, I promise to downsize government instead of your job!

I'm Michael Badnarik, Libertarian for President. I ask the tough questions—to give you answers that really work!
